NEW EQUIPMENT**

## // MAIN FEATURES

### ► High level of productivity:

- Easy and intuitive assembly using standard shoring and forming components with a simple clamp and/or bolt & nut connections.
- Concrete beams up to 32ft. long are easily moved as a unit with integrated wheels.

### ► Cost-effective solution by using standard Modular panels reducing labor cost and plywood waste.

The system can be cycled for multiple pours, maximizing the utilization of on-site material.

### ► Modular & Versatile:

- Beam forming with standard MEGALITE modular panels.
- Wide range of shoring height applications and high load bearing capacity with ALUPROP posts. MEGAFRAME shoring towers available.
- The system can be cycled for multiple pours, maximizing the utilization of on-site material.
- Excellent concrete finish.
- Compatible with ULMA safety accessories such as handrails and post brackets for added safety.
